Re: Update to Ritz Rd. project. Docket # T-05-0009

174 575 C

Mr. Lazarides,

My portion of the upgrade at the Ritz Road crossing, the Southern approach, will be completed within one (1) year after the crossing gates are installed by the U.P. Railroad.

I had hoped to have this completed this fall, trying to miss the increase in the cost of asphalt, but, as you know, the U.P. Railroad changed their completion date. If their installation date holds true, my portion of the upgrade should be done by this time next year.

If there are any questions, please contact me.

Thank You!

John Adamson
Marengo Township
Highway Commissioner
